

RYCO FILTERS

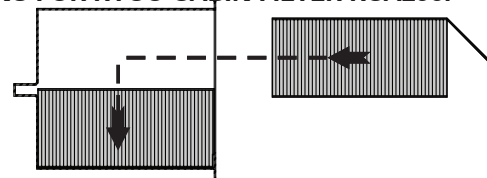

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA238P

RCA238C contains two cabin filter.
To install the cabin filters into
the filter housing it would need plastic joiner
that comes with original filters.

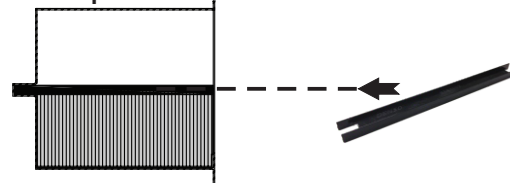

Plastic joiner-not included in
RCA238P filter set.

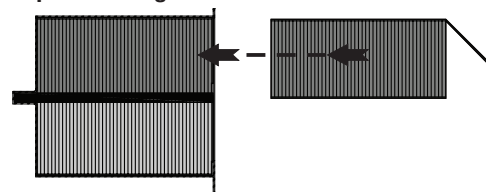

1. Open the cover underneath the glove
box at the passenger side to locate
the cabin filter housing
2. Open the plastic cover of the filter
housing by squeezing the clip
on one side.
3. Remove old filters by dragging their flaps.
Clean the plastic joiner

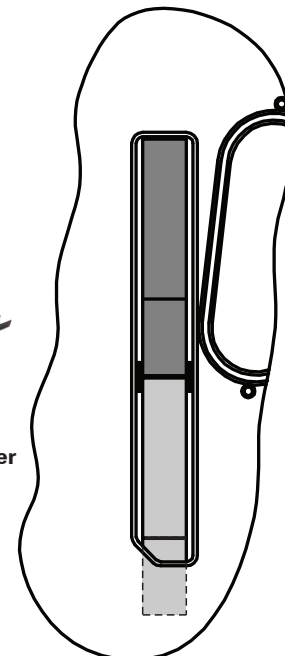

4. Push first cabin filter into the filter housing
then press downwards.

5. Place plastic joiner on top the first cabin filter
push through to the end.

5. Place second cabin filter on the plastic joiner
insert into the filter housing
