

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA335P.

Mercedes GLC Class X253 Series 11/15 - On.

Cabin Filter
Housing

1. Locate the cabin filter housing cover at the passenger side under the bonnet. Remove the two clips (Fig 1.) then open the cover.

2. Press the two clips (Fig 3.) at the rear end of the cabin filter housing (Fig 2.) and lift the housing upwards to access the filter.

3. Turn the housing upside down to remove the filter (Fig 4.). Fit the new Ryco cabin air filter by ensuring the air flow arrow points upwards. Refit all components in reverse order.
