

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA326C.

MINI Cooper (F55, F56)

Also Fits: BMW 2 Series (F45, F46), X1 (F48) & i3

- 1. The cabin air filter is located in the passenger footwell behind the centre console side trim. For better working space, slide the passenger seat all the way back.**
- 2. Remove the back panel in the passenger side footwell securing the floor carpet. On some models the lower centre console trim has to be removed. Pull back the carpet so it allows for more space to work on.**
- 3. The cabin air filter housing is now accessible. Unclip the lid from the bottom and remove. Slide the old filter out carefully to avoid any accumulated debris from being spread around and clean the area. Insert the new filter making sure it faces to the correct air flow direction and refit all components in reverse order.**
